

Our Daily Craft's 30 Day Art Challenge

- Draw or write with your non-dominant hand.
- With a partner, each of you draw the same thing. Or draw something you see.
- Put on some music and paint or draw to it.
- Start a painting and swap with a partner to finish.
- Draw a map of your house, school or workplace.
- Write a secret message in white crayon on heavy paper. Swap with a partner and "decode" the message by painting over it in watercolor.
- If you have yarn in the house, try finger knitting.
- With a child, have them draw on fabric and you can embroider over their drawing. Or you can both draw on fabric and swap for embellishments.
- Sew a softie or two.
- Collect items from outside and make a collage or construction.
- Use a Y-shaped stick for a weaving project.
- Make a single-line drawing of something you can see wherever you are sitting. Try it again with your eyes closed.
- Collect things from the house to make stamps with. Decorate a card and mail it to someone you wish you could see in person.
- Make pom-poms and use them for a project.
- Make playdough or air-dry clay and make a sculpture or a pinch pot.
- Find a picture of a painting you love and try to re-create it.
- Make a drawing, painting or other piece of art with your least-favorite color.
- Make a sun print.
- Draw something's shadow.
- Make a finger painting or use cotton swabs or balls to apply paint.
- Use junk mail or magazines to make a collage or weaving project.
- Take a picture outside and then draw or paint it. Or draw what you see out your window.
- Illustrate a favorite quote by hand or ransom-note style.
- Lay some tape down on a piece of paper and paint or color, then remove the tape.
- Trace your handprint and write or draw something about yourself or your day in the space.
- Write a haiku about your day and illustrate it.
- Download a coloring page or make your own and color it.
- Make a paper airplane. Decorate it and have a flying competition.
- Find a drawing tutorial online and see if you can draw it.
- Draw a mythical creature of your own invention.
